RE: Docket Management Branch - HFA -305 - Docket No. 99N-4282

Dear Elected Officials, Government Employees and Concerned Citizens,

Please add my name to the list of citizens from the state of Washington that want that FDA to enforce the rules that food companies must label genetically engineered or modified foods. I am an American citizen and I demand that the FDA enforces the labeling laws for all of us. It is my right to know what I am eating and what I am feeding my family. Don't you have that right, too? I know that you care about your children and grandchildren! I care about you and your family, too. I want all foods to be labeled with honest and thorough information.

I would appreciate a reply from all of my U. S. Senators and U. S. Representatives so I can hear your opinion on this important topic. I want to assume that all of you care what my and your children and grandchildren eat and will eat and that all of us want genetically engineered or modified foods labeled. But if your opinion is different, please tell me why. Help me understand if you have a different opinion.

I hope that all my U. S. Senators and U. S. Representatives have joined or will join Rep David Bonior (D-MI) on telling FDA to enforce the labeling provisions of the Federal Food, Drug and Cosmetic Act.

Thank you,

Mary Ann Newell
